Experience a safer
and more open world

Supporting you throughout the life cycle of your entrance solution

A steady flow of people, goods and services through your entrances every day is a sign of healthy business. But heavy traffic also puts your systems under pressure.

Even something as robust and well-designed as an ASSA ABLOY automatic doors and dock equipment needs the right care, attention, and service to stay in great working order and to maximize its potential and life cycle.

At ASSA ABLOY, we offer high-precision maintenance services. We understand that the safety and productivity of your business hinge largely on functional, secure doors and dock solutions. Therefore, our team of certified technicians uses advanced diagnostic equipment and tools to detect and fix the issues, ensuring durability and peak performance. With us, expect regular maintenance programs, timely repairs, and expert guidance on door life span enhancements.

We ensure that your equipment remains in optimal condition, minimizing the risk of costly downtime and maximizing productivity. Trust ASSA ABLOY for efficient, affordable, and reliable door repair and maintenance solutions.

In the process of serving you in the best possible way, we have come up with various service contracts, so that you leave your worries to us and let us ensure the smooth running of your products. These service contract solutions are tailored for different requirements and budgets covering diverse applications across all product categories.
