

ICU/CCU Door ASSA ABLOY VersaMax™ 2.0 Swing

ASSA ABLOY

ASSA ABLOY Entrance Systems

The global leader in
door opening solutions

Simple to use.
Easy to adapt.

Simplify your ICU door

The ASSA ABLOY VersaMax 2.0 ICU Swing door package provides a convenient approach to doors in your ICU/CCU area. Available in single, equal pairs and unequal pair configurations, the manual swing door design provides a user-friendly interface, breaks out easily for egress or patient transport and requires no floor tracks. It offers a great solution for a variety of needs.

Easy to use and operate, the ASSA ABLOY VersaMax 2.0 Swing package offers an extremely wide door opening. Smoke rated packages are certified to UL1784. Non-smoke rated packages feature the option of automating a swing door leaf for additional ease of use.

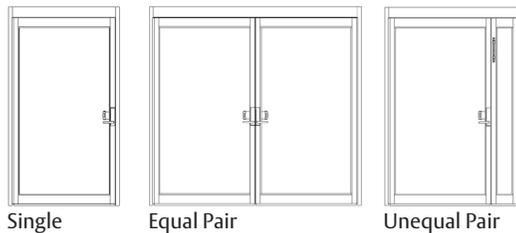

Integrating optional internal glass blinds or electro static glass increases patient privacy while lowering infection risk and laundering costs.

Meeting all your requirements

The ASSA ABLOY VersaMax 2.0 Swing meets all requirements of superior performance in a critical care environment. A variety of configurations and sizes are available to customize to your door openings. The ASSA ABLOY VersaMax 2.0 Swing is offered in a smoke rated package certified to UL 1784 which includes factory installed t-slotted seals, concealed sweeps and a latching system. An optional door closer is available to provide a self-closing system.
