

Cold Chain doors

ASSA ABLOY CI Mak Swing Ambient

Experience a safer
and more open world

The Mak Swing Ambient is a manually operated pivot door specifically engineered for environments with positive temperatures, accommodating conditions up to +5°C.

Ideal for use in ante rooms and transitional spaces, this door features a semi-flush overlapping design that enhances thermal insulation while maintaining a sleek, modern appearance. The pivot mechanism allows for smooth and effortless operation, contributing to both user convenience and operational efficiency.

Whether used in food processing areas, cold storage access points, or controlled ambient zones, this door delivers a balance of functionality, durability, and aesthetic appeal.
