ecoLOGIC

This product meets all the necessary qualifications to be certified for the
following claims:

GreenCircle certifies that ecoLOGIC has achieved certified energy savings. The analysis compares the total energy required for heating and cooling the building annually, with and without ecoLOGIC activated. The ecoLOGIC calculator accurately predicts energy savings by considering various parameters to correlate door settings with heating and cooling needs at a given location. Pilot tests confirm that ecoLOGIC is able to reduce energy losses by continuously and dynamically optimizing door settings based on real-time data gathered from the door as well as from external sources like weather and traffic data.
