Sophisticated styling

ASSA ABLOY Entrance Systems is pleased to offer the ASSA ABLOY RD3-100/RD4-100 manual revolving door package. Nicely complementing the line of ASSA ABLOY brand automatic revolving door products, the ASSA ABLOY RD3-100/RD4-100 offers unencumbered access to your facility while still preserving maximum energy efficiency. Available in either 3 or 4 wing varieties, the RD3-100/RD4-100 offers dynamic aesthetics combined with solid quality to make this system ideal to create an inviting commercial entryway.

Energy savings

With an “always open, always closed” enclosure, revolving doors are the ideal doorway to provide significant energy savings. With increasing interest and focus on designing energy efficient, green buildings, revolving doors are a logical choice. The ASSA ABLOY RD3-100/RD4-100 seals the building envelope to significantly reduce energy consumption and separate the conditioned air of the interior environment from the unconditioned air, noise, and drafts of the exterior environment. Your customers, clients, visitors and employees will have easy, unencumbered access to your facility while still preserving maximum energy efficiency for your building.

Variety

The RD3-100/RD4-100 is available in a variety of diameters including 6', 7' and 8' with flat glass door leaves of 1/4" (6mm) clear laminated safety glass and curved outer walls of 7/16" (11mm) clear laminated safety glass. The package is offered in clear anodized, paint and #4 brushed or #8 mirror stainless steel clad finish.

Return to quarter point

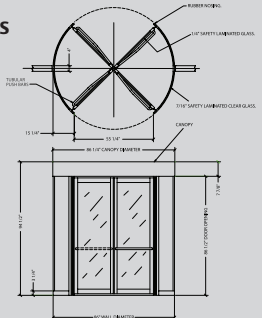

Each ASSA ABLOY RD3-100/RD4-100 manual revolving door system is equipped with our Return to Home feature ... conveniently moving the door leaves to the most energy efficient starting point after each manual rotation.
