Entrance Systems

Experience a safer
and more open world

Expertly engineered to fit
the smallest of openings

Transforming the traditional manual swing door entrance

Automatic doors create a welcoming entrance for any facility, ensuring a smooth traffic flow and convenient, hands-free access. Many retailers, offices and establishments specifically design their building exteriors to accommodate door automation and create ease for customers.

Until now, the average pair of 3'0" x 7'0" manual swing doors could be challenging to navigate due to the limited 32" (813mm) clear door opening, small foot print and cross traffic concerns. Enter the revolutionary ASSA ABLOY SL500 T67 telescopic sliding door. Specifically designed to fit the same door opening provided by a pair of 3'0" x 7'0" manual swing doors, only a minimum of 72" (1829mm) of overall frame width* is required to transform your entryway with no less than 46" of usable door opening. Whether new construction or retrofit applications, look to ASSA ABLOY SL500 T67 to automate virtually any small entryway.

ASSA ABLOY SL500 T67 – Min/Max Dimensions

	Jambs by others	1/4" jambs OHC	1" jambs OHC	1-3/4" jambs OHC	1" jambs SA
Minimum					
OFW	72" package width (1829mm)	72-1/2" (1842mm)	74" (1880mm)	75-1/2" (1918mm)	74" (1880mm)
CDO	46-1/4" (1175mm)	46-1/4" (1175mm)	46-1/4" (1175mm)	46-1/4" (1175mm)	46-1/4" (1175mm)
Maximum					
OFW	99-1/2" package width (2527mm)	100" (2540mm)	101-1/2" (2578mm)	103" (2616mm)	101-1/2" (2578mm)
CDO	64-5/8" (1641mm)	64-5/8" (1641mm)	64-5/8" (1641mm)	64-5/8" (1641mm)	64-5/8" (1641mm)

OFW = overall frame width CDO = clear door opening OHC = overhead concealed SA = surface mount

*using existing door jambs

Exceptional strength and performance

Compact space and expansive clear door opening isn't all you can expect from the ASSA ABLOY SL500 T67. With innovative, special enhancements, such as the exclusive "door on door" technology, the ASSA ABLOY SL500 T67 improves on inferior suspended track systems. Using *two structural boxes* instead of one, ASSA ABLOY eliminates misaligned doors that bounce and rattle, providing you with improved performance.

A flush exterior lock cylinder with concealed security armor and a lock bolt guard allows the door panels to open completely... simultaneously maximizing your space and protecting you from break-ins.

Horizontally mounted rollers keep proper distance between door panels to reduce wear and rubbing.

Superior energy efficiency

The ASSA ABLOY SL500 T67 telescopic sliding door is designed with innovative energy efficient features to help provide cost saving benefits, including advanced seals, insulated glass and magnetic catches. The unit comes standard with ASSA ABLOY EcoDoor seals for superior energy savings, reducing air infiltration by as much as 40% and providing ASHRAE 90.1 compliance. Insulated 1 ¼" insulated glass also helps to provide temperature control and additional energy savings.

ASSA ABLOY SL500 T67 advantages

- Horizontally mounted rollers for reduced rubbing
- ASHRAE 90.1 compliance
- Requires only 72" of overall frame width
- Flush exterior lock cylinder to maximize door opening
- Overhead concealed or surface mount
- Full breakout

One partner for all your entrance needs

Architects & specifications services

From planning and design to construction and delivery, ASSA ABLOY Entrance Systems supports you in meeting the requirements of your project
